

## *Colorectal Surgery Research Fellowships*

**Aim:** The ASCRS Residents Committee has compiled this list of colorectal surgery research fellowships to help connect interested general surgery residents to research fellowships during their dedicated research years or graduating surgical residents who are taking a year before fellowship to focus on colorectal research.

*If you are a Fellowship Program Director and are interested in adding your research fellowship position to this list, please reach out to the [ASCRS Residents Committee](#) with program name, contact information including email address, and website that the interested applicant should refer to for more information.*
